

11. Additional Resources & Information

Queensland

The issues associated with domestic violence are often complex and require a range of specialist supports including counselling, legal and court support and accommodation. It is important that employees are made aware of these supports and that your workplace maintains up to date details of these agencies.

Specialist services staff are aware of the special needs of Aboriginal women and women from other cultures, as well as those living in rural and remote areas. Most services can provide culturally appropriate workers and translators where required.

Referral to Specialist Services:

Tip: maintain an up to date list for your local area

DV Connect: www.dvconnect.org

Women's line: 1800 811 811
